## Objective and Skills

I'm an ambitious Information and Communication Technology student with the ability to adapt and work in any environment. I'm seeking an internship for Summer 2020 and a full-time job for Fall 2020 in web or software development. I enjoy being creative and I'm always eager and ready to learn.

## Work Experience

### FRONT-END WEB DEVELOPER | CAPS, TALLAHASSEE | 2020 - PRESENT

- Currently interning as front-end web developer for the Decision and Secure Systems Laboratory.
- In the process of reconstructing the current website to ensure a more attractive and user-friendly experience.
- In the process of designing custom graphics for the website.

### STUDENT LIBRARY ASSISTANT | FLORIDA STATE UNIVERSITY, PANAMA | 2017-2018

- Responsible for the library's front desk operations.
- Responsible for troubleshooting and maintaining 6 computers and 2 printers.
- Provided an information and reference service using print and online sources.
- Managed a database of 1000+ students

### TECHNICAL SUPPORT ASSISTANT | ICON S DE RL, TEGUCIGALPA | 2014

- Acquired extensive knowledge of computers and troubleshooting.
- Diagnosed and repaired malware, viruses, faulty hardware, drivers, BIOS, among others.
- Managed to meticulously repair 40+ devices in less than a year.
- Provided exemplary customer service with effective communication.

## Education and Coursework

### INFORMATION AND COMMUNICATION TECHNOLOGY | FLORIDA STATE UNIVERSITY | 2016 - 2020

- Currently in my senior year at Florida State University with a major GPA of 3.7.
- Currently developing a dynamic website with Django for a class project. (Spring 2020)
- Currently designing and developing an app (Astro Planner). (Spring 2020)
- Developed a personal website and career portfolio using HTML5, CSS and JavaScript. (Fall 2019)
- Developed a canvas homework uploader app using Python. (Fall 2019)
- Developed a weather app using Electron and JavaScript. (Summer 19)
- Designed and implemented databases using MySQL. (Summer 19)
